Important Product Update

Your child has previously been taking Resource® Junior as recommended by his or her healthcare professional. This product will now be available in a handy 200ml plastic bottle, and this leaflet informs you of the changes.

Resource® Junior in cartons

will now
be available as

Resource® Junior in bottles

Has the nutritional content changed?

No, Resource® Junior is the same product with the same nutritional benefits you and your child have been used to.

Will Resource® Junior taste any different?

No, Resource® Junior has the same great taste and flavour range you and your child have come to expect from Nestlé Nutrition.

Will there be any changes in how I receive Resource® Junior?

No. Your healthcare professional and pharmacist are aware of the changes, and your pharmacist will dispense the product for your child in the same way.

We have made no changes to the nutritional content or taste of Resource® Junior, it is only the packaging that has changed.
