

Dear Healthcare Professional

**Important Product Update\*Important Product Update\*Important Product Update**

Thank you for prescribing the Peptamen® range of products for your patients.

Nestlé Nutrition are committed to providing high quality nutritional solutions for patients with impaired GI function.

From 1<sup>st</sup> May 2010 the Peptamen® 375ml can will be phased out. However, Peptamen® will continue to be available in the following presentations (all of which can be used instead of the 375ml can):

200ml Vanilla Cup  
4 x 200ml

500ml DRIPAC®-flex

1,000ml DRIPAC®-flex

**Peptamen® 500ml and Peptamen® 1,000ml have exactly the same nutritional composition as Peptamen® in a 375ml can.**

**Peptamen® Vanilla Cups have a very similar profile, slightly adjusted to make the product more palatable for sip feeding.**

Please find further information (including PIP codes) on the alternative Peptamen® presentations and the rest of the Peptamen® family overleaf.

We have also enclosed some patient information leaflets to help re-assure your patients.

Enhancing the quality of life

## The Peptamen® Family

Product	PIP code
Peptamen® Vanilla Cups – 200ml x 6x4 (24)	265-8417
Peptamen® DRIPAC®-flex – 1L x 6	271-3576
Peptamen® DRIPAC®-flex – 500ml x 12	271-3568
Peptamen® HN DRIPAC®-flex – 500ml x 12	324-3730
Peptamen® AF DRIPAC®-flex – 500ml x 12	347-6330

## DRIPAC®-flex Adaptors

Adaptors for the DRIPAC®-flex are available free of charge to allow compatibility with other manufacturers' feeding sets and systems.

These adaptors are suitable for all DRIPAC®-flex sizes.

### Spike adaptors:

allow compatibility with Nutricia Advanced Medical Nutrition Ltd giving sets

### Screw cap adaptors:

allow compatibility with Abbott Nutrition Ltd giving sets

To place an order for adaptors, please call the Nestlé HealthCare Nutrition Customer Careline on 020 8667 5130.
