

Dear Healthcare Professional

Important Product Update*Important Product Update*Important Product Update

Thank you for prescribing Resource® Junior for your paediatric patients.

Nestlé Nutrition are committed to providing high quality, great tasting nutritional supplements for their patients with or at risk of malnutrition.

We have recently upgraded the packaging of Resource® Junior, and would like to take this opportunity to inform you of the changes.

Resource® Junior in cartons
(prescribing unit 1 x 200ml)

will now be
available as

Resource® Junior in bottles
(prescribing unit 4 x 200ml)

Resource® Junior will still be available in the same flavour range (chocolate, strawberry, vanilla).

We have made no changes to the nutritional content or taste of these products, it is only the packaging that has changed.

Please find ordering information for Resource® Junior overleaf.

We have also included some patient information leaflets to help explain the changes to your patients.

Enhancing the quality of life
